10/19/04 – Special Meeting
THREE RIVERS LEVEE IMPROVEMENT AUTHORITY

October 19, 2004

TO: Three Rivers Levee Improvement Authority
FROM: Roddy Margo, Assistant County Administrator
SUBJECT: Contract to Provide Appraisal Services Related to Plumas Lake Development

Recommemded Action

Approve Contract to provide appraisal services related to levee improvements in the newly formed Mello-Roos Community Facilities District for levee improvements.

Reason for Recommended Action

An appraisal study is needed to evaluate the property value available as collateral to secure the underlying bonded debt for infrastructure improvements in the newly formed Mello-Roos Community Facilities District.

Discussion

Last week, your Board approved the creation of a Mello-Roos Community Facilities District to improve the levees surrounding the South Yuba Basin Area. A bond sale is anticipated by the end of January 2005 in order to finance the proposed levee improvements for this area. Bond investors require an appraisal study to evaluate the value of the properties being obligated as collateral for repaying the bonded debt.

A competitive process took place last spring to select a firm to conduct an appraisal study for the levee community facilities district. The firm Seegers, Jordan and Ziegmann has extensive experience in the Sacramento area performing these types of studies and was considered to be the top firm by the selection committee.

Fiscal Impact

Funding for this contract will come from fees paid by the developers and a grant/loan from the Yuba County Water Agency. No County funds will be used for this contract.

SUBJECT: Consider Report on Feasibility of Reclamation District 784 Supplemental Flood Control Improvements of the Yuba-Feather Supplemental Flood Control Project

Recommended Action

Adopt and submit feasibility report to California Department of Water Resources.

Purpose of Recommended Action

In order to obtain State Water Bond Act of 2000 (Proposition 13) funding for design and engineering work pertaining to levee improvements in the South Yuba County Basin, a feasibility study needs to be adopted and approved by the local lead agencies and the California Department of Water Resources.

Discussion

The feasibility report examines the technical and economic merits of improvements to Reclamation District 784's levees as integral elements of the overall Yuba-Feather Supplemental Flood Control Program. Yuba County Water Agency undertook the study as part of its overall approach to enhance flood protection in Yuba County. The study evaluates a comprehensive plan for improving levees, including levee raising and strengthening and setback levees. The report also provides a financial framework for completing the projects, and a timeframe for construction work to be finished by the end of October 2006.

This report also has been provided to the Yuba County Water Agency for its consideration of adoption and submittal to the Department of Water Resources.

Fiscal Impact

Funding for proposed projects consists of a combination of local developer money ($24,658,000) and Proposition 13 funds ($37,594,000).
Re: Report on Feasibility of RD 784 Supplemental Flood Control Improvements, October 2004

Enclosed are nine and five copies of the subject report for review and adoption by your respective Boards of Directors and transmittal to the Department of Water Resources for its acceptance. A draft letter of transmittal is also enclosed. Written and oral comments on the draft report, August 2004, have been taken into consideration in this report.

The report demonstrates the technical and economic merits of the improvements to RD 784 levees and as integral elements of the Yuba-Feather Supplemental Flood Control Program. It proposes that the estimated cost of $62,252,000 be financed by $37,594,000 from the Water Act of 2000 and $24,658,000 of local funds. An estimated $11,218,000 can be allocated to the environmental enhancement provisions of the Act.

A staged Southern Setback Levee along the right levee of the Lower Bear River can be constructed by the end of October 2006, provided that all reviews, permits, property acquisition, and approvals are secured on expedited schedules. In addition, tight construction contract schedules will be required. Portions of the existing levee are scheduled for removal in 2007 after the U.S. Army Corps of Engineers certifies the setback levee as a project levee.

Planning and formulation of this program has been challenging and satisfying. It is rewarding to determine that there are cost-effective means to greatly improve flood protection for RD 784. It has been a pleasure to work with you and all team members in this effort.

Sincerely,

Herbert W. Gregory
Managing Executive Engineer

FROM: Randy Margo, Assistant County Administrator
SUBJECT: Contract to Provide Market Feasibility Services Related to Plumas Lake Development

Recommended Action

Approve Contract to provide market feasibility services related to levee improvements in the newly formed Mello-Roos Community Facilities District for levee improvements.

Reason for Recommended Action

A market feasibility study is needed to market the bonds for infrastructure improvements in the newly formed Mello-Roos Community Facilities District.

Discussion

Last week, your Board approved the creation of a Mello-Roos Community Facilities District to improve the levees surrounding the South Yuba Basin Area. A bond sale is anticipated by the end of January 2005 in order to finance the proposed levee improvements for this area. Bond investors typically require a market feasibility study to understand the likely cash flow and value of the properties repaying the debt for the bonds.

A competitive process took place last spring to select a firm to conduct a market feasibility study for the levee community facilities district. The firm, Paquin Research Inc. (dba as the Gregory Group) has extensive experience in the Sacramento area performing these types of studies and was considered to be the top firm by the selection committee.

Fiscal Impact

Funding for this contract will come from fees paid by the developers and a grant/loan from the Yuba County Water Agency. No County funds will be used for this contract.

In this regard, CONTRACTOR shall furnish to THREE RIVERS LEVEE IMPROVEMENT AUTHORITY such financial information as in the judgment of the THREE RIVERS LEVEE IMPROVEMENT AUTHORITY is necessary to determine the reasonable value of the services rendered by CONTRACTOR. In the event of a dispute as to the reasonable value of the services rendered by CONTRACTOR, the decision of the THREE RIVERS LEVEE IMPROVEMENT AUTHORITY shall be final. Subject: Market Feasibility Services Related to the Three Rivers Levee Improvement Authority CFD Located in Yuba County, California

Dear Randy, James and Tom:

We are pleased to present this proposal for Market Feasibility services related to development of the Three Rivers Levee Improvement Authority CFD located in Yuba County, California. The purpose of this proposal is to establish our agreement to conduct real estate feasibility services on your behalf. This letter contains Background and Philosophy, Scope of Services, Fee and Time Requirements, and Limiting Conditions to conduct this analysis.

I. BACKGROUND AND PHILOSOPHY

As we understand it, you are interested in Market Feasibility services related to development within the Three Rivers Levee Improvement Authority CFD located in Yuba County. The subject area includes a total of approximately 2,078 gross developable acres and is planned to offer several product types including single-family and multi-family parcels. The focus of this effort is to provide conclusions and recommendations related to lot sizes and lot size distribution, product type and configuration, pricing and absorption for each of the parcels.
Our analysis will be forward-looking, projecting supply and opportunity into the future. We will interact in a team environment in an effort to integrate the market data and recommendations effectively with planning and decision-making efforts. In our experience, this sets the forum for combining the best individual ideas into a cohesive team product. This will be important as you formulate an approach to future development.

II. SCOPE OF SERVICES

We rely upon our experience with similar development situations from the regional market area to form a basis from which research will be conducted, as well as information supplied by you. In addition, we will relate the success and failure of other development efforts that we have observed and apply lessons learned to the challenges faced in today’s competitive development environment. To most effectively address market opportunities and challenges, the following Scope of Services will be performed:

- An inspection, assessment and analysis of the locational characteristics of the subject site
- Provide a completed report that includes ten to fifteen pages of text as well as charts, tables and graphs as supporting documentation.

Specifically, as related to each product type (single-family and multi-family), the following items will be performed:

**Single-Family For-Sale Units**

- Analyze market trends and competitor positions (pricing and absorption, product type and distribution, lot size, premiums, special taxes, etc.) of new-home developments within the subject market area to consider new product opportunities at the subject site. The primary market area is considered to be Yuba and Sutter Counties, with secondary influences from the market areas of Lincoln, Roseville, Rocklin, Natomas and Woodland.
- Access homebuyer preferences in the surveyed projects as evidenced by sales activity to add perspective to buyer profile/target market.
- Analyze proposed developments within the competitive market area to include a listing of the projects, the total number of units that have been submitted, have approved tentative maps and have approved final maps (and where available, the developer name, project statuses, development timing, etc.) Proposed information will be gathered from Yuba and Sutter Counties.
- Provide recommendations in regard to the market feasibility of the proposed residential project to include:
  - Project unit counts, home sizes and pricing for each parcel;
  - Project absorption potential for each parcel;
  - Target market;
For-Rent Apartment Units

- Analyze market trends and competitor positions (rents and occupancy, product type and distribution, bedroom and bathroom counts, density, project features, premiums, incentives, etc.) of for-rent apartment projects within the subject market area to consider new product opportunities at the subject site. The primary market area is considered to be within the immediate area of the subject site.
- Access renter preferences in the surveyed projects as evidenced by rent activity and occupancy to add perspective to renter profile market.
- Provide an analysis of proposed for-rent apartment projects within the immediate area of the subject site to include location, developer, number of units, density, approval status, etc.
- Provide recommendations in regard to the market feasibility of the proposed residential project to include:
  - Project unit sizes and rental rates;
  - Absorption and occupancy potential;
  - Target market;

III. FEES AND TIME REQUIREMENTS

The total fee for this assignment is $14,000. We require a signed contract and a retainer of 50 percent of the agreed upon fee ($7,000) in order to begin work. The final 50% payment ($7,000) is due upon delivery of the final report.

Any fee amount unpaid 30 days after the invoice date will be assessed a bi-monthly service charge of 1.5 percent per month. Two bound copies of the final report are included in the fee. Additional copies will be billed at $75 per copy. Any additional work outside the scope of this proposal will be billed on a professional time and materials basis at a rate of $500 per hour.

The Gregory Group will be reimbursed for out-of-pocket expenses, which will be billed at cost plus a 20 percent handling charge, with expenses not to exceed $1,400.

If work is stopped on this effort for any reason, you will be responsible only for the fees and expenses incurred to that date. Upon written confirmation by both parties that the study is closed, you will be invoiced for the amount due. If the report is delayed once primary data has been collected, it may be necessary to collect the primary data again. If this is determined to be true, then additional time and cost may be required. However, no extra time or cost will be incurred without the written approval of both parties.

IV. LIMITING CONDITIONS

This letter sets forth our understanding of the terms and objectives of our engagement and the nature and limitations of the services we will provide.
You are responsible for representations about its plans and expectations and for disclosure of the significant information that might affect the ultimate realization of the projected results.

There will be differences between projected and actual results because events and circumstances frequently do not occur as expected, and the differences may be material.

We will not express any form of assurances on the achievability of any pricing or absorption estimates or reasonableness of the underlying assumptions.

We have no responsibility to update our report for the events and circumstances after the date of our report.

Payment of any and all fees and expenses is not in any way contingent upon any factor other than providing services outlined in this letter.

The use of this report is limited to you for internal analysis and discussion purposes. The Gregory Group cannot be responsible for the use to which clients put the information provided.

The Gregory Group authorizes the County of Yuba and the Three Rivers Levee Improvement Authority to potentially use the market absorption study in preparation of the preliminary and final Official Statements.

The Gregory Group will sign a certificate at the transaction's closing asserting that the market absorption information is complete, accurate, and has been properly presented within the disclosure documents as stated within the signed and agreed upon proposal and as of a specific and reasonable time period.

THREE RIVERS LEVEE IMPROVEMENT AUTHORITY

Signature: __________________________

Date: __________________________
October 26, 2004

TO: Three Rivers Levee Improvement Authority
FROM: Randy Margo, Assistant County Administrator
SUBJECT: Loan/Grant Agreement between Three Rivers Levee Improvement Authority (TRLIA) and the Yuba County Water Agency (YCWA)

Recommended Action
Approve loan/grant agreement between TRLIA and YCWA for engineering and administrative services related to the design, environmental review and permitting of a levee improvement project on the south bank of the Yuba River near Linda, California.

Background
A recent geological study found the south levee of the Yuba River from Highway 73 upstream to the Union Pacific Railroad to have an unacceptable risk of failure due to underseepage and through levee seepage. In order to immediately address these risks, TRLIA initiated a project this summer, which included engineering, design, environmental review and permitting. Considerable TRLIA administrative staff time also was involved in this project.

The YCWA Board has approved funding for the above tasks for an amount of $700,000. The money is to be loaned at four percent (4%) interest per annum, with the stipulation that the funding will convert to a grant if repayment is not legally possible. The source of repayment is the money obtained from the proposed bond sale for levee construction work. The debt service on the bonds is provided by special taxes paid by developers.

Fiscal Impact
From a practical standpoint, there is no fiscal impact to TRLIA as the Authority has no independent assets. The source for repaying the loan is the money provided by the sale of bonds.
YUBA COUNTY WATER AGENCY
LOAN/GRAIN AGREEMENT
WITH THREE RIVERS LEVEE IMPROVEMENT AUTHORITY

This Agreement is entered into this ___ day of October, 2004, by and between Yuba County Water Agency, a public agency organized under the Yuba County Water Agency Act ("Agency") and Three Rivers Levee Improvement Authority, a joint powers authority ("Authority"), who agree as follows:

1. RECITALS. This Agreement is made with reference to the following background recitals:

a. Authority has requested an Agency loan or grant of $700,000 for engineering and administrative services relating to the design, environmental review, and permitting of a levee improvement project on the south bank of the Yuba River near Linda, California, as described in the Scope of Work, Yuba River Levee Improvement Work, Three Rivers Levee Improvement Authority, Marysville, California, dated June 10, 2004 and prepared by HDR, Inc. (a copy of which is on file with each party) (the "Work").

b. Agency finds that the Work will significantly benefit residents and property owners within the Yuba County Water Agency, and that the Work furthers Agency's own flood control goals and purposes. Agency therefore agrees to loan the money to Authority on and subject to the terms of this Agreement, with the understanding that the loan may convert to a grant pursuant to section 3.

c. The Work is an integral part of the Yuba River Basin Project authorized by Congress in section 101(a)(10) of the Water Resources Development Act of 1999 (113 Stat. 275) and by the California Legislature in California Water Code section 12670.7. The parties intend that the expenditures on the Work funded by this Agreement shall be local agency and non-federal interest in-kind contributions toward the Yuba River Basin Project and credited toward the local agency and non-federal share of the cost of that project for purposes of federal and state flood control project cost-sharing requirements. The Work also is part of a broader flood control project that is being studied by the Agency pursuant to the Yuba-Feather Supplemental Flood Control Project under California Water Code sections 79068-79068.20 and the parties intend that expenditures on the Work funded by this Agreement shall be local agency contributions toward the Yuba-Feather Supplemental Flood Control Project and credited toward the local agency share of the cost of that project for purposes of Water Code section 79068.8.

d. The Authority is undertaking proceedings for the issuance of bonds or certificates of participation to finance flood control improvements in south Yuba County. The Authority (through the County of Yuba) also is undertaking negotiations with developers in south Yuba County for alternative developer funding (e.g., direct developer contributions) of flood control improvements in south Yuba County. The bond/certificates of participation proceeding and negotiations for alternative developer funding shall be referred to collectively as the "Flood Project Financing."

2. LOAN AND DISBURSEMENT OF FUNDS.

a. Agency agrees to loan to Authority, and Authority agrees to borrow from Agency, up to the sum of $700,000, subject to the terms and conditions of this Agreement. The loan proceeds shall be used solely by Authority to pay for the costs of the Work as described in section 1(a).
b. Upon request by Authority, Agency shall pay all invoices, bills, statements, and other expenses for the Work. Payment requests shall not be submitted more frequently than semi-monthly. Payment requests by Authority shall include satisfactory copies of subject invoice(s), bill(s), statement(s), and/or other proof of cost item. If Agency determines that the payment request is for eligible costs, and if Authority is otherwise in compliance with this Agreement, then Agency shall pay the item directly to the vendor, contractor, supplier, etc. within 30 days of receipt of the request. Total disbursements shall not exceed the total loan/grant amount of $700,000.

c. Agency shall account for the cumulative principal loan amount owed by Authority as disbursements are approved and paid by Agency. The principal loan amount under this Agreement shall be determined and adjusted periodically based on the approved and paid disbursements.

d. Subject to section 3, Authority promises to pay to the Agency, or order, the principal loan amount with interest on unpaid principal at a rate per annum equal to the average rate of interest earned by Agency funds deposited with the Yuba County Treasurer during the previous Agency fiscal year, but not less than 4% per annum. The interest rate shall be adjusted at the beginning of each Agency fiscal year (July 1) based on this average rate of interest for the previous fiscal year (but the rate shall not be less than 4%). Interest shall begin to accrue on principal owed immediately after the first disbursement. Each loan payment shall be credited first on interest then due and the remainder on principal; and interest shall thereupon cease upon the principal so credited. Should interest not be paid by the end of the fiscal year (i.e., by June 30), the unpaid interest shall thereafter be added to principal due and bear like interest as the principal. The annual amount of interest owed shall not exceed the maximum rate permitted by law. The principal balance and any accrued interest may be fully repaid at any time by the Authority, without prepayment penalty. The Authority shall be excused from paying interest if it is unlawful to use the proceeds of the Flood Project Financing for payment of interest or would adversely affect the sale or price of the bonds. To the extent permitted by law, Authority shall structure the Flood Project Financing documents to authorize and provide for payment of interest pursuant to this Agreement.

e. Authority shall include the Work as an eligible project cost within the scope of the Flood Project Financing and diligently pursue the completion of the Flood Project Financing in an effect to secure funding for the Work. If the Authority successfully implements the Flood Project Financing and secures funding for the Work, then Authority shall repay the loan balance in full to Agency, including principal and interest, within 30 days after (i) the closing on the issuance of the bonds or certificates of participation financing, or (j) the closing or securing of the financing/funding pursuant to an alternative developer funding approach.

f. All Work that Authority desires to be funded by this Agreement must be completed and loan disbursement request made to Agency by December 31, 2005. No loan disbursement requests shall be accepted by Agency after that date, unless the date is extended by the Agency.

3. CONTINGENT LOAN; CONVERSION TO GRANT. If, by June 30, 2010, the Authority has not successfully implemented a Flood Project Financing and proceeds from a Flood Project Financing are not available to repay the loan balance under this Agreement, then, upon that date, the loan shall be converted to a grant and the Authority shall have no obligation to repay the loan to the Agency.
4. COMPLIANCE WITH LAWS. Authority shall perform the Work in compliance with all applicable federal, state and local laws, regulations and codes, including the acquisition of all required permits, licenses, entitlements, and authorizations. The parties acknowledge that the Work constitutes "public works" as defined at Labor Code sections 1720 to 1720.4, and Authority and its contractors and subcontractors shall comply with California statutes and regulations applicable to public works projects, including, but not limited to, the following requirements: payment of prevailing wage rates; employment of apprentices; hours of labor limitations and overtime; payroll records; workers' compensation insurance; payment/labor and materials bond; non-discrimination laws; contractors' state license requirements; and California Environmental Quality Act environmental review.

5. RECORD KEEPING. Authority shall keep and maintain bookkeeping records, accounts, and documentation pertaining to the receipt, disbursement, and use of the loan proceeds to pay for Work, including invoices, receipts, cancelled checks, and contracts. These records shall be retained for a period of not less than three years from the completion of the Work. These records shall be accessible and available for inspection or audit by Agency, or by its employees, accountants, attorneys or agents, at reasonable times and upon reasonable notice.

6. STATE AUDIT CONTINGENCY. As required by California Government Code section 8546.7, the parties acknowledge that this Agreement, and performance and payments under this Agreement, are subject to examination and audit by the State Auditor General for three years following final payment under this Agreement.

7. REPRESENTATION AND WARRANTIES. Authority makes the following representations and warranties:

   a. There are no legal actions, suits, or proceedings pending or, to the knowledge of Authority, threatened against Authority.

   b. Authority is not in default of any obligation, judgment, bond, debenture, note or other evidence of indebtedness.

   c. No outstanding tax liability has been asserted against Authority by the IRS, California Franchise Tax Board or any other taxing authority.

8. DEFAULT. At the option of the Agency, the occurrence of any of the following events shall constitute a default:

   a. Any material representation or warranty made by Authority is breached, false or misleading in any material respect.

   b. Any material provision of this Agreement ceases to be valid and binding, or Authority contests any such provision, or Authority, or any agent or trustee on behalf of Authority, wrongfully denies that it has any or further liability under this Agreement.

   c. Authority fails to perform any covenant, condition, or agreement set forth herein, and such failure shall continue for a period of 30 days after notice thereof (which notice shall specify in reasonable detail the nature of such failure) from Agency.
d. Authority becomes insolvent or unable to pay its debts as they mature or makes an assignment for the benefit of creditors, or there shall occur a material adverse change in the financial condition of Authority.

e. Authority files or there is filed against Authority a petition to have Authority adjudicated a bankrupt or a petition for reorganization or arrangement under any law relating to bankruptcy unless, in the case of a petition filed against Authority, the same is dismissed or stayed within 60 days.

f. Authority applies for or consents to the appointment of a receiver, trustee or conservator for any portion of Authority's property, or such appointment is made without Authority's consent and is not vacated within 60 days.

In the event of default, Agency may immediately call the loan due and payable in full and enforce its remedies as provided by law. This provision shall not apply if the loan has been converted to a grant pursuant to section 3.

9. LIMITATIONS. Authority shall not, without prior consent of Agency (a) pledge, mortgage or otherwise encumber in any manner whatsoever any of Authority's present or after acquired property or assets, (b) borrow money or obtain a loan (other than the proposed Flood Project Financing) from any person, corporation, or any other source, (c) make or guarantee any advances or loans made to others, or (d) sell or distribute a substantial part, or all of its assets.

10. GENERAL PROVISIONS.

a. Integration. This Agreement constitutes the sole, final, complete, exclusive and integrated expression and statement of the terms of this contract among the parties concerning the subject matter addressed herein, and supersedes all prior negotiations, representations or agreements, either oral or written, that may be related to the subject matter of this Agreement, except those other documents that are expressly referenced in this Agreement.

b. Construction and Interpretation. The parties agree and acknowledge that this Agreement has been arrived at through negotiation, and that each party has had a full and fair opportunity to revise the terms of this Agreement. Consequently, the normal rule of construction that any ambiguities are to be resolved against the drafting party shall not apply in construing or interpreting this Agreement.

c. Waiver. The waiver at any time by any party of its rights with respect to a default or other matter arising in connection with this Agreement shall not be deemed a waiver with respect to any subsequent default or matter.

d. Successors and Assigns. This Agreement shall bind and inure to the benefit of the respective successors, assigns, heirs, devisees and personal representatives of the parties.

e. Amendment. This Agreement may be modified or amended only by a subsequent written agreement approved and executed by both parties.

f. Governing Law and Venue. Except as otherwise required by law, this Agreement shall be interpreted, governed by, and construed under the laws of the State of California.
g. Attorney's Fees. In the event any collection action or lawsuit is brought to enforce or construe this Agreement, the prevailing party shall be entitled to an award of reasonable attorney's fees, costs of collection, expert witness and consulting fees, litigation costs and costs of suit.
