Gravel and Contaminated by Gravel Area
HEADING No. 1
SBC SLURRY WALL PROFILE
TRLIA PHASE 4
MARYSVILLE, CA

Graph showing the elevation profile for various stations ranging from 88+00 to 85+20. The graph includes lines for:
- Work Platform
- Top of Gravels
- Bottom of Gravels
- Record Elevation

The profile indicates the elevation changes across different stations, with specific annotations for gravel and contaminated areas.
