Paul G. Brenner
Three Rivers Levee Improvement Authority
1114 Yuba Street, Suite 218
Marysville, CA 95901

Dear Mr. Brenner,

As you know I have a long term lease with DWR to farm 120 +- acres at the north end of Anderson Road, Marysville Ca. The property is adjacent to the property that I am submitting this proposal for. When the pear trees were removed some stumps were left in the ground and now are re-sprouting.

I agree to inspect and remove all visible re-sprouting stumps left on the "Naumes" property inside the newly constructed setback levee. I will properly dispose of the waste by grinding or burning, whichever is feasible and permissible. I should be able to complete the removal before the Spring of 2012. The removal costs shall not exceed \$45,400.00 and payment will be due upon completion of the job.

.....

Per all the above, both parties below agree.
